

ALLEMANDE BREAKS #3

An “accumulation” called by Marvin Shilling from La Veta, Colorado
Western Jubilee 578A

Grab your girl, swing real hard, stay right there in your own back yard
Then allemande left with your left hand – walk right in to a right and left grand
Go right foot up and left foot down – meet a little lady and truck on down
Promenade go two by two – right back home like you always do

First and third forward and back – second and fourth forward and back
Head two couples right and left through – side two couples right and left through
Head two couples right and left back – side two couples lead to the right
Circle four with all your might – side men break and make two lines
Go forward eight and back – go forward again and cross trail through
Allemande left that’s what you do – grand right eight and you go a few
Right and left go ‘round the ring – meet that gal and you promenade
Keep on going, don’t slow down – promenade that gal around

First and third let’s wheel around – right and left through – turn right back
Cross trail through and allemande left and you’re not through
Promenade with your own little girl
Take your lady and keep on going, do not stop – two and four wheel around, now pass through
Go to the next, right and left through and turn right back
Pass through and go to the next – cross trail through
Do a left allemande and a right to your honey for a wagon wheel
Wagon wheel and give it a whirl, and roll that wagon round and round

Now ladies in a full turn around – ladies chain across that town
Chain across, don’t be slow – chain right back across you go
Turn ‘em left like an allemande thar – men back up in a right hand star
Then break in the middle with a full turn around – men star right three quarters around

Allemande left with your left hand – right to your girlie a right and left grand
Well, meet that gal and ain't she nice – promenade to paradise

Put her in the lead, single file – lady in the lead go 'bout a mile
Men turn back and swing a little while – now promenade one more time in single file
Make a wheel and roll it along – now men, you turn right out and go the other way
And meet that girl and box the gnat – then promenade from where you're at
Promenade go two by two – right back home and don't be blue

Now first and third go forward and back – now forward again and box the gnat
Now pull her by, cross trail through and go around one
Down through the middle and box the gnat
Then you pull her by – cross trail through and go 'round one
Down through the middle with a right and left through and turn right around
Cross trail back go around the outside, go around two – and you meet that gal, that's what you do

Walk right by – allemande left and allemande O
Go right and left and do-si-do (do-pa-so), it's back to the corner with a right
Then back to your honey with a left, go all the way around
The men star right across you go – and a do-si-do (do-pa-so) and a little more dough
And the corner girl with a right, then back to your honey gonna promenade
Gonna take that gal don't be afraid
Promenade eight and promenade all – right back home and don't you fall

Now ladies center and back to the bar – and the men to the middle with a right hand star
Go all the way 'round, and the other way back and you don't fall down
Now meet your honey, pass her by – go all the way 'round go on the fly
Pick up your own girl on the fly, you take that gal to the by and by
Now ladies in a full turn around – the gals gonna chain across that town
Turn 'em once and a half around – men star, star by the right three quarters around
Allemande left and a right to your girl and promenade go around the world

Promenade that's all she rote – take your honey to a chair – we done finished with another square
