Intro and break:

Walk around your corner lady, turn your own girl with a right
And let the men star left, one time, box the gnat right there at home
And let the ladies star left, swing with your own there at home
Let's do a left allemande, and you weave that ole ring
'Til your own little ole doll you see, then you promenade the land
You go walking hand in hand, out under a western moon.

Figure:

And now, the heads (sides) to the middle, face your corner, eight chain through
Turn 'em on the ends an chain across the set you do, turn 'em on the ends,
chain 'em right on across
With the sides (heads) do a right and left through, then you dive on through
**And do a California twirl, swing with your corner girl
Then you promenade the square, just like you're walking on air
Out under a western moon

Ending:

Come on, let's all join up hands, and circle to the right
Go halfway 'round to home, now the men star left
The girls backtrack, it's twice around you go
Tuen 'em with a right hand around, you do a left allemande
A grand ole right and left, 'til your own little ole doll you see
Then you promenade the land, you go walking hand in hand

Out under a western moon

Alternate ending for figure:

**Square through, three quarters 'round, pull her by and swing a brand new girl

Then you promenade the land, you go walking hand in hand,

Out under a western moon
